DETAILED ACTION

Claims 8-16 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 10/18/04.

This application is in condition for allowance except for the presence of claims 8-16 to species non-elected without traverse. Accordingly, claims 8-16 have been cancelled.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior arts fail to show a flapping apparatus that has a central point rotating mechanism as claimed and the wing shaft rotating mechanism that follows the rotation of the wing shaft about the prescribed central point without using any driving force from a driving source and rotates the wing shaft about a central axis of rotation parallel to the direction of extension of the wing shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
